# BIOTIME<sup>®</sup>

Patented, pelleted multi-nutrient hoof and coat supplement for horses

Net Weight 5 lbs. | 10 lbs. | 25 lbs.

Patented product

Improves hoof quality

Palatable oatmeal- and molasses-based pellet

Promotes a shiny hair coat

## Feeding Recommendations

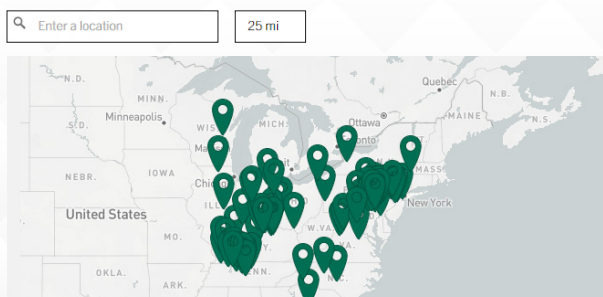

Feed 1 oz. per day per 1,000 lbs. of body weight. However, up to 2 oz. per day per 1,000 lbs. of body weight may be beneficial for horses with extremely bad hooves. For the sake of balanced nutrition, please check with your nutritionist or veterinarian before feeding more than 2 oz. per day.

## Unsure which McCauley's product is right for your horse?

## Guaranteed Analysis

D-biotin, Min.....320 mg/lb (20 mg/ounce)  
DL-methionine, Min.....10.6% (3000 mg/ounce)  
Zinc, Min.....2470 ppm (70 mg/ounce)

## Ingredients

Feeding oatmeal, yeast culture, dried yeast (*Saccharomyces cerevisiae*) fermentation solubles, cane molasses, DL-methionine, zinc methionine, D-biotin, along with sorbic acid, propionic acid and ethoxyquin as preservatives.

**Please Note:** This product information sheet is meant to serve as a general overview and is not intended to replace the product label. Always refer directly to the product label for the most up-to-date nutrient content and feeding directions.

## Function and Use

Biotime is truly a unique nutrition supplement for the hooves and coats of horses. Since poor-quality hooves and rough, dry hair coats can result from several nutrient deficiencies and/or the diminished ability to metabolize these nutrients, Biotime takes a multi-nutrient approach toward the prevention of these conditions.

The wide range of nutrients included in Biotime are supplied in a very palatable oatmeal- and molasses-based pellet, which can easily be top-dressed over your horse's feed or fed alone. The small scoop enclosed in each package of Biotime holds approximately a 1-oz. feeding, which is recommended for horses with poor-quality hooves and/or dry, rough hair coats.

While positive results have been reported much earlier, several weeks or even months of supplementation may be necessary before the full benefits of Biotime can be seen in the horse.

## Our Story

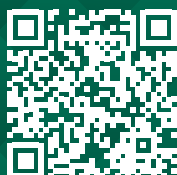

When McCauley Bros. Feed & Seed, Inc. was initially established in 1938, FDR was president, the ballpoint pen had just been invented, and a gallon of gas cost a whopping 20 cents.

Some 20 years later, with a passion for Thoroughbred horses and a heartfelt desire to take the guesswork out of equine nutrition, Graham McCauley began converting his family's traditional farm store into an equine-focused feed business that was, in many ways, the first of its kind.

Although many years have passed, our focus on feeding horses with wholesome, highly effective ingredients remains the same. We have had the pleasure of feeding countless horses — from Olympians to Triple Crown winners and many beloved companions in between — all while maintaining the highest standards of feed quality and safety.
