

PELLETED

McCAULEY'S®

an Alltech® company

LONGEVITY®

Pelleted feed for senior or stressed horses

Net Weight 50 lbs (22.7 kg)

Alltech Ingredients:

Yea-Sacc®, Bioplex®, Sel-Plex®

Fully fortified with all essential vitamins and minerals

Contains yeast and enzymes to promote proper gut function

Highly palatable and digestible

Made with whey protein

Feeding Recommendations

Feed 0.5 to 1.5 lbs per 100 pounds body weight per day and allow free-choice pasture or hay. Longevity® may also be fed as a mash. This guideline is for horses with a mature body weight range of 1,100-1,300 lbs (500-590 kg). The amount of feed given at any one time should be no more than 0.5% of the horse's body weight. For example, a 1,000 lb horse should be fed no more than 5 lbs per feeding.

Free-choice salt and fresh, clean water should be available at all times. Do not feed additional proteins, vitamins or minerals unless instructed to do so by a qualified professional.

Our Story

When McCauley Bros. Feed & Seed, Inc. was initially established in 1938, FDR was president, the ballpoint pen had just been invented, and a gallon of gas cost a whopping 20 cents.

Some 20 years later, with a passion for Thoroughbred horses and a heartfelt desire to take the guesswork out of equine nutrition, Graham McCauley began converting his family's traditional farm store into an equine-focused feed business that was, in many ways, the first of its kind.

Although many years have passed, our focus on feeding horses with wholesome, highly effective ingredients remains the same. We have had the pleasure of feeding countless horses — from Olympians to Triple Crown winners and many beloved companions in between — all while maintaining the highest standards of feed quality and safety.
