Net Weight 50 lbs. (22.7 kg)

M10 Balancer™

Pelleted supplement for horses at
maintenance or in light work

Balances the diet of horses
solely on pasture, hay or
unfortified grains

Highly palatable

Soy-Free

Meets nutrient
requirements of the
National Research Council
(NRC) when fed as directed

Feeding Recommendations

M10 Balancer™ is a comprehensive vitamin and mineral supplement for mature horses at maintenance or in light work. It is designed to be fed alone or in varying ratios with oats to provide the desired levels of energy, vitamins and minerals in the diet. In general, 0.5 to 2 lbs. of M10 Balancer™ per day per 1,100 lbs. of mature weight is all the supplementation necessary.

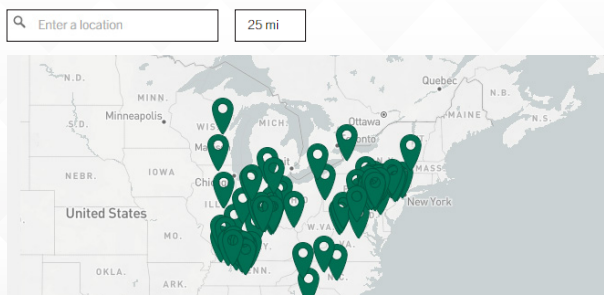

Always provide good-quality hay and/or pasture, along with clean, fresh water and free-choice salt. Do not feed additional proteins, vitamins or minerals alongside M10 Balancer™, unless on the advice of a nutritionist.

Vitamin K, vitamin B1 (thiamin), vitamin B2 (riboflavin), vitamin B3 (niacin), vitamin B6 (pyridoxine), choline, folic acid, D-pantothenic acid, vitamin B12, magnesium, cobalt, iodine, iron and manganese

Our Story

When McCauley Bros. Feed & Seed, Inc. was initially established in 1938, FDR was president, the ballpoint pen had just been invented, and a gallon of gas cost a whopping 20 cents.

Some 20 years later, with a passion for Thoroughbred horses and a heartfelt desire to take the guesswork out of equine nutrition, Graham McCauley began converting his family's traditional farm store into an equine-focused feed business that was, in many ways, the first of its kind.

Although many years have passed, our focus on feeding horses with wholesome, highly effective ingredients remains the same. We have had the pleasure of feeding countless horses — from Olympians to Triple Crown winners and many beloved companions in between — all while maintaining the highest standards of feed quality and safety.
