SPORT BALANCER

Pelleted horse feed supplement

Alltech Ingredients:

Actigen®, Yea-Sacc®, Bioplex®, Sel-Plex®, Integral®

Meets or exceeds all
National Research Council
(NRC) nutrient requirements

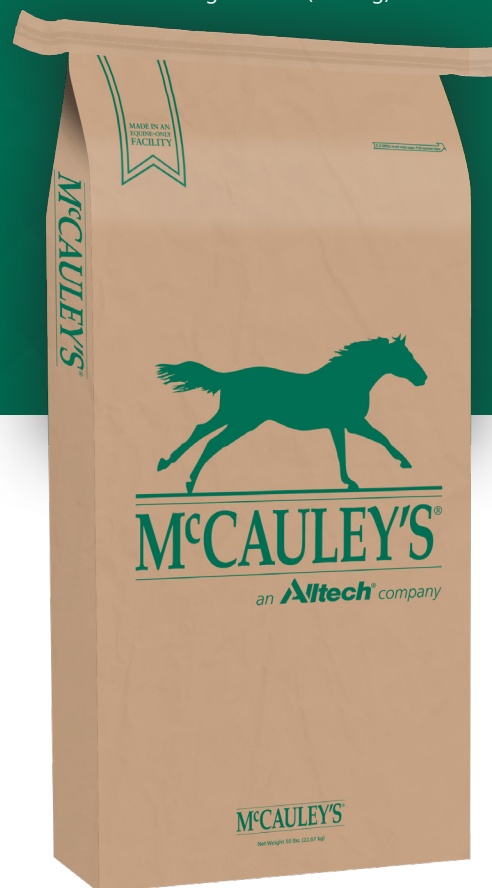

Contains whey protein

Designed to support
ideal gut function

Corn and wheat
middling free

Feeding Recommendations

Sport Balancer is a comprehensive supplement for all horses. It is designed to be fed alone or in varying ratios with oats or unfortified feedstuffs to provide the desired levels of protein, vitamins, minerals and energy in the horse's diet. In general, providing 1 to 2 lbs of Sport Balancer per day for an average-size riding horse (i.e., 0.1 to 0.2 lbs per 100 lbs of body weight) is all the supplementation necessary.

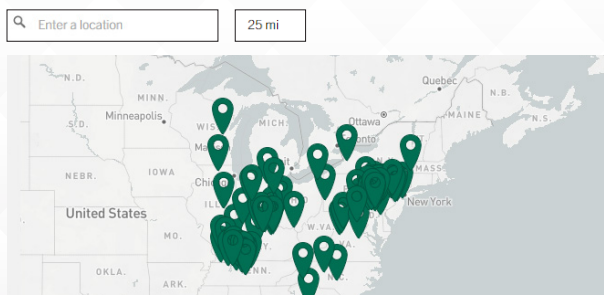

Always provide good-quality hay and/or pasture, along with clean, fresh water and free-choice salt. Do not feed additional proteins, vitamins or minerals in addition to Sport Balancer, unless on the advice of a nutritionist.

Our Story

When McCauley Bros. Feed & Seed, Inc. was initially established in 1938, FDR was president, the ballpoint pen had just been invented, and a gallon of gas cost a whopping 20 cents.

Some 20 years later, with a passion for Thoroughbred horses and a heartfelt desire to take the guesswork out of equine nutrition, Graham McCauley began converting his family's traditional farm store into an equine-focused feed business that was, in many ways, the first of its kind.

Although many years have passed, our focus on feeding horses with wholesome, highly effective ingredients remains the same. We have had the pleasure of feeding countless horses — from Olympians to Triple Crown winners and many beloved companions in between — all while maintaining the highest standards of feed quality and safety.
